

Artwork Setup

In order to produce the highest quality image of your logo and/or photograph the file should meet certain specifications.

Logos

- Should be High Resolution (300 dpi at least)*
- Should be in the format they were created (EPS, Vector)
- TIFF and Bitmap are acceptable
- Should NOT be JPEG's

Photographs

- Should be High Resolution (300 dpi at least)*
- TIFF or JPEG acceptable
- Should be 3 inches high

*NOTE -Photos and Logos that have been saved at a low resolution (less than 300 dpi) can not be converted back to High Resolution (at least 300 dpi). Attempting to do so does not improve the image quality.

Sending us your file

E-mail to artwork@bizboxinc.com

Files over 5MB

Go to www.yousendit.com and E-mail that way

You can send this document to the person who originally created the file and have them send us a copy of the original.

Any questions please contact BizBox Inc at 877-724-9269.
